WOE BE TO WE MEN—WE ARE JUMPED ON AGAIN

San Francisco, July 20.—Asserting that a smoker thought more of his cigar or his pipe than of his wife and advising all young women who are engaged to men with tobacco habit to break with them, Dr. Charles G. Pease, New York, president of Non-Smokers' Protective league of America, opened first annual convention of that organization here with three persons in his audience. One was real delegate, second was a press agent looking for a job and the third a reporter.

"No woman can afford to occupy the same room with a man who smokes," said Dr. Pease today. "A wife for the good of future generations should insist on her husband

living by himself in another part of the house. I am in favor of every wife forcing her husband to smoke on the back doorstep. He should not be allowed to smoke in the house. If we don't stop this smoking business our jails are going to be overcrowded."

Mrs. Willson, the delegate, urged men to boycott women who smoke or drink cocktails. She declared that cigarettes and cocktails were getting a hold on college girls and that something must be done to counteract this.
